Project Name	Smart farmer-IOT Enabled smart farming application

create the IBM Watson IoT platform and a device

The screenshot shows the IBM Watson IoT Platform interface. The main heading is "Browse Devices". Below it, there are two tabs: "All Devices" (selected) and "Diagnose". A message states: "This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API." Below this is a search bar labeled "Search by Device ID" and a "Device Simulator" toggle. The table below lists the devices:

	Device ID	Status	Device Type	Class ID	Date Added	Descriptive Location
>	2401	Disconnected	Arduino	Device	Nov 8, 2022 12:18 PM	

At the bottom of the table, it says "Items per page 50 | 1-1 of 1 item". On the right side of the table, it says "1 of 1 page" with navigation arrows.
